1 ceCMG Conference - We were there!

The ceCMG Autumn Conference took place between November 11th and 12th, 2025, at BearingPoint location in Frankfurt. CeCMG is the meeting venue for everyone who is driving the future of enterprise IT. Two days filled with exciting insights from research and practice, intensive discussions, and the latest exchange of information – all about the challenges and developments in the enterprise IT environment.

We did not only attend but did highly appreciated presentation: Dr. Daniela Schilling (CEO, Delta Software Technology) used current customer examples to demonstrate the automated migration of database systems: **"From IBM IMS/DB to relational? Absolutely secure!"**

You were not able to attend? Then don't hesitate and request the presentation. We also recommend our webinar recording: **"Automated and Secure Migration from IBM IMS/DB to DB2"**. In the webinar, we demonstrated our AMELIO solution and, together with Gothaer Solutions GmbH and Provinzial Versicherung AG, answered participants' deep dive questions. You can request the presentation slides and recording here (available in german). A recording of an english webinar you will find here: Virtual IMS Meeting - Replacing IBM IMS/DB.

A huge thank you to everyone who attended and made the discussions so lively, and kudos to the ceCMG board for organizing and running this fantastic event.

You can find more information about the ceCMG here.

2 Delta ADS - Generation for the Java Target System P3/COBOL

Existing IT applications are often a company's most valuable software assets, setting it apart from its competitors. One of today's greatest challenges is therefore to expand a company's technology

base without having to give up decades of valuable development work.

So how do you bring your COBOL applications generated with Delta ADS into the modern world quickly and securely? It's simple! To make it easier for you to integrate your Delta ADS applications into your Java environment, Delta Software Technology made the Delta ADS development system available for the EasiRun P3/COBOL compiler.

Integrate your Delta ADS applications easily into your Java environment:

3 Delta ADS - 'Saint Nicolas' Release

"Every year again..." - This year we have once again created a 'Saint Nicolas' release for you:
Just in time for 6th December, the new Delta ADS release (6.6.9) is available for you.

delta-software.com/ads

This release contains new functions, some changes and the generation has been further optimized. With Delta ADS Release 6.6.9 we also offer you a new target for the generation of P3/COBOL.

You can find further information on both the new release and the new target in the release notes in the support area of our website.

Request your update directly!

You'll find a list of our current product versions here.

4 New Delta Training Courses: Register Now

Anyone using tools to automate software development needs in-depth knowledge of the methods, modes of operation, and capabilities of the tools. And not just "in principle", but in relation to the concrete environment and task.

Our training courses and workshops help you to use Delta tools efficiently and to optimise the development of your applications: Practice-oriented and taking into account your main areas of interest.

ADS Basics - ADS for Administrators - ADS Refresher - ADS on Eclipse - ADS What's new

Here you will find the new dates:

- 03.03.-05.03.2026 and 15.09.-17.09.2026 ADS Basics
- 10.03.-12.03.2026 and 22.09.-24.09.2026 ADS for Administrators
- 17.03.-18.03.2026 and 29.09.-30.09.2026 ADS Refresher
- 14.04.-15.04.2026 and 06.10.-07.10.2026 ADS on Eclipse
- 21.04.2026 and 13.10.2026 ADS What's new
- 28.04.2026 and 20.10.2026 Delta DETAB
